MILTON T. VAFANA

WEB DEVELOPER

PROFESSIONAL SUMMARY

Dedicated and proficient Web Developer, Milton Vafana, born in Zimbabwe in 2005, with a robust command of PHP and over 5-6 years of hands-on experience in the field. Demonstrating a proven track record of delivering high-quality web solutions, I excel in crafting dynamic and responsive websites that meet and exceed client expectations. Possessing a keen eye for detail and a passion for staying abreast of emerging technologies, I consistently leverage my expertise to drive innovation and efficiency in web development projects.

WORK EXPERIENCE

Diamond Berry Enterprises

Web Developer

2019 - 2021

I was responsible for translating project requirements into efficient and scalable code, ensuring the functionality and usability of the web applications met the highest standards. I actively participated in the entire development lifecycle, from conceptualization and planning to deployment and maintenance, demonstrating my versatility and adaptability in handling various tasks.

COH&S College

Web Developer

2021 - 2023

My time at COH&S College provided valuable opportunities for collaboration and teamwork. I participated in group projects, where I collaborated with peers to design and develop dynamic websites, fostering communication and collaboration skills essential for success in the field.

Odyssey Africa

Software & Data Development

2023 - 2024

My responsibilities included designing and implementing data-driven web applications that streamlined processes and enhanced decision-making capabilities. Through my contributions, I played a key role in driving the company's growth and success in a dynamic startup environment.
